Other: Agile, Scrum, TDD, Unit/Integration Testing, Clean Code, SOLID, DRY, KISS, YAGNI, Responsible from Code to Production, PR and Reviewing, Jira, Confluence

EXPERIENCE

Pactum AI / Software Engineer

JAN 2020 - PRESENT, TALLINN, EST

- Designed and implemented a chatbot to negotiate the contract terms with suppliers on behalf of our client. Developed RESTful backend servers by utilizing Springboot framework written in Kotlin. Well-tested, load-balanced and secured. ([Chatbot](#))
- Produced an Admin/Client panel written in ReactJS. ([Admin panel](#))
- Integrated Github Actions and GCP to establish a robust, fully automatic CI/CD from code to production.

Ansar IT / Senior Android Developer - Mobile Team Lead

MAY 2015 - OCT 2019, TEHRAN, IRN

- Responsible for the full software lifecycle (Plan, Design, Develop, Test, Deploy). Led a team of 13 people to produce 10+ banking apps (backend and mobile). Among the most-downloaded banking apps with over 1 million users. I managed to increase the bank's online transactions by 3 times and enabled users to access an array of new online services. All apps utilize cutting-edge techs and stacks.
- Mobile Bank app ([Ansar Mobile Bank](#))
- Loan Calculator
- USSD app ([*763#](#))
- Customer Club
- Branch Management

Seeb Smart Solutions / Senior Android Developer

JUL 2015 - APR 2017, TEHRAN, IRN

- Managed to develop, test, troubleshoot, fix, maintenance and enhance 10+ apps.
- Implemented the most popular TV sport program on the national network.
- Developed a delivery app with customer and driver versions.

Mapfa / Android Developer

APR 2014 - MAY 2015, TEHRAN, IRN

- Implemented an Instant Messaging and VoIP app with group chats, file transfer, video call, stickers, etc. ([Callyar](#))
- Produced a live video broadcast app with conference videos, movie backstages, summaries and more.

Personal / Android Developer

2015 - 2019, TEHRAN, IRN

- MePlus is my startup, a platform to enable customers to pay retail with their smartphone and without the physical card. ([Customer](#), [Merchant](#))
- Clash of Clans Loot Forecaster ([Loot Forecaster](#))
- Niligo Smart light bulb android app ([Niligo](#))
- Open Community of Cloud Computing official app ([OCCC](#))

EDUCATION

IAU / Computer Engineering

2008 - 2013, TEHRAN, IRN

BSc in Computer Software Engineering

Thesis: EBanking implementation and utilizing RMI in Java

AWARDS

Multiple Robocup Soccer 2D Simulation awards

Multiple Chess competitions medals
